Databases:	MySql

PROJECTS / OPEN-SOURCE

Portfolio | Link   *HTML, CSS, JavaScript, Git*
I built a personal portfolio website using HTML, CSS, and JavaScript. The website showcases my skills and experience through project descriptions, testimonials, and a visually appealing layout. I utilized responsive design principles to ensure the website adapts seamlessly to different screen sizes.

Login App | Link   *HTML, CSS, JavaScript, Git, MySql*
Developed a secure login application using React and Node.js, demonstrating proficiency in front-end and back-end development. Implemented user authentication with JWT, ensuring data security. Collaborated effectively with team members to deliver a high-quality product on time.

Netflix Clone | Link   *HTML, CSS, JavaScript, Git, API*
Implemented user authentication, movie search and filtering, video playback, and personalized recommendations. Demonstrated proficiency in front-end development, API integration, database management, and responsive design.
